ARENA DRAGSTER

Engineered for Efficient Performance. The Arena Dragster is designed to be pulled behind ATVs, UTVs, Garden Tractors, and Compact Tractors. The Dragster features a revolutionary Depth Control System, which gives you the power to control your arena depth over the entire surface. The swept tine design enables the Dragster to be an aggressive groomer for sandy and sandy-loam arena conditions. With the Easy-to-Use, Side-Wind Jack, adjust your Dragster grooming depth in one simple movement, dramatically enhancing the floating and leveling finish on your arena. The result: consistent, level ground with every use.

Ride Hard ... Stay Grounded!

Affordable - Effective - Efficient Arena and Track Grooming Maintenance

ARENA DRAGSTER

Features

- Arena Dragster is designed to be pulled behind an ATV, UTV, Garden Tractor, or Compact Tractor.
- Tines are offset on 2.5" spacings for optimal grooming coverage.
- Each Tine breaks new ground and is swept forward to increase the cutting force of the Dragster, compared to a standard harrow.
- Five linear surfaces consist of the rear Arena Comb and Four Harrow Tine Bars, which dramatically enhance the floating and leveling capabilities of the Dragster.
- Performance's Revolutionary Depth Control system adjusts your Dragster using a heavy duty 5000 lb. Side-Wind Jack.
- The Arena Comb is designed to follow the contour of your arena surface, smoothing and leveling your ground.
- Your Dragster can be adjusted between 0" - 4"
- Harrow Tines are 5/8"x7.5" long, hardened, steel spikes, and easily replaced.
- 1 – 6" rear Arena Comb is laser cut from 1/4" plate steel and is easily replaceable.
- Frame is constructed from laser cut 1/4" steel plate for years of dependable service.
- Comes with an adjustable hitch to align with virtually any pull vehicle.
- 8"x2" No Scuff Wall Wheel, to help navigate your arena, is mounted at the front and can be mounted on either side.
- 10"x4" Flat Free tires are located inside the frame for optimal Dragster coverage. Therefore, they do not leave an imprint in the arena.
- Two sizes to choose from: 52" & 64" wide.
- Durable black paint finish.

2,5" Offset Tines

Arena Comb and rear harrow tines. Flat Free Tires located inside the frame for optimal grooming coverage.

8"x2" No Scuff Wall Wheel

8"x2" Adjustable Hitch

QD Model	Recommended Power	Width	Length
PFDSTR 52	200 – 600cc / 13hp	52"	62.5"
PFDSTR 64	600cc / 19hp	64"	62.5"
